Please Answer the following in the Scale of 1 to 10		1 to 10
Q1: Whether this program was useful for the UG students?		10
Q2: Whether this program is encouraging UG students to take further higher study i.e. PG?		10
Q3: Whether this program was able to inculcate Research aptitude among the students?		10
Q4: Whether proper guidance was provided to the students by the Guide?		10
Q5: Whether proper support was provided to the student by the College?		10
Q6: Improvement in the existing knowledge after SPUR Award?		10
	Total	60 /60

Any suggestions for further improvement of this program?

1. It would really help if part of the stipend could be released soon after the research proposal approval, so that as UG students we have the resources and timely support to carry out our research projects without financial strain.
2. I feel SPUR could be open to students of all years, not just final-year, because younger students often bring fresh perspectives and creative ideas, and it would ensure early exposure and nurture research interest.
3. A simple follow-up system after completion of our projects like publication support, annual presentations, and incentives would encourage us to take our work further and sustain long-term research.
4. I truly appreciated that the entire process of SPUR was online and completely digitalized, which made it convenient and accessible to us students all over India.
